I bought a box from you at the end of last month. When it came a couple days ago, it didn't work. I hooked it up like the instructions said and the light on the box stays red no matter what I do. it doesn't seem to power on and I have no display on any screen I try to connect to. I have plugged it into multiple outlets, multiple hdmi ports, used multiple sets of new batteries and nothing works.

You can return it if it doesnt work. This last update has screwed everyone up. I would offer a replacement but at this point I would probably recommend trying a dreamlink instead. That will come with a partial refund as well.

hi, I had bought a box from you a couple of months ago. I had a friend from work tell me about Vader and how much they like it. I saw on your site that you have it too and I wanted to add it but the website isn't taking the account information that I have. I tried to go to Realm TV site where I bought from before but I couldn't find it. is there any way you can help me? or tell me what to do?

My CC processor just shut me down so card payments are on hold for a few days while I set something new up. For now I can take Paypal, Cashapp, Venmo, Bitcoin, Litecoin, Ethereum. We can also now offer to set you up with our auto-renew system. Reply to this email and let me know how you would like to pay.

is the pricing any different for the vader if I pay month to month vs buying like 6 months at a time?

To

Yes, the more months you buy at a time, the cheaper per month it gets. The prices are at my site.
